SEMI ANNUAL UPDATE – JANUARY TO JUNE 2018

SK Damansara Damai 2 Special Needs Wing, before and after

SPECIAL NEEDS WING

Nourish was introduced to SK Damansara Damai 2 in early 2018 and we were taken aback by the images of the 29 special needs students (autistic, blind, cerebral palsy) learning on the floor due to a shortage of desks and chairs. Since then the team visited the school every month, donated raw food supplies for their life skills lessons and also to a number of needy students' families consistently while getting to know the students and the school a bit more. Our generous donors allowed us to also provide desks and chairs for the classroom. Currently, they are still in need of general sports / activity equipment. If you think you can help, kindly donate to Nourish (bank information below).

Some of the children live challenging lives

Nourish also helped Haneen Firdous, a shelter home for girls aged 10 to 13 years old. The girls were sent to this home mostly because their parents are not able to raise them financially and/or emotionally. All the girls go to school and some will be sitting for major exams this year.
